Differentiated Instruction for Middle School Students (Grades 6-8)

2 Credits

Meet the needs of *all* your middle school students with techniques to differentiate content, process and products. Discover methods for pre-assessment and strategies for tiered activities. Throughout the course learners will work on their final project, a differentiated instructional unit that aligns with MD standards.

Children's Authors on the Web: Online Sites that Motivate Students to Write (Grades K-6)

2 Credits

Explore and develop author studies using the Web to motivate students to read and write, as well as expand their use of technology.

Teaching for Multiple Intelligences (Grades K-12)

2 Credits

Discover the advantages of teaching methods that engage multiple intelligences and explore ways to implement them. Learn to teach and assess students differently based on their individual learning preferences.

Assessment and Evaluation (Grades K-12)

2 Credits

Delve into the full array of assessment and evaluation tools, including rubrics, journals, formal and informal assessments, and portfolios. Then, create an effective rubric based on an existing student assignment.

An Introduction to Underlying Principles and Research for Effective Literacy Instruction (Grades K-8)

3 Credits

This course is designed to give educators research-based concepts and instructional practices for teaching phonemic awareness and phonics to elementary students. As a final task, learners will design a plan of instructional activities that develop each area covered in the course.
